### **Future Education Methods (FEM) Communications**

As previously communicated on August 14, 2009, the comment period on the initial exposure of the FEM proposal ended on September 10, 2009. For those members who provided comments, many thanks for your contributions. For those who have not yet submitted comments, you can still send them to [fem@actuarialdirectory.org](mailto:fem@actuarialdirectory.org). The Boards of the CAS, CIA and SOA are interested in your thoughts.

In terms of next steps:

- all three Boards are meeting in the fall and will review feedback on the proposal;
- the FEM Steering Committee continues to meet and update the FAQs that appear on our websites; and
- the Joint Accreditation Committee has been fully staffed and is holding its first meeting this week in Chicago.

As information emerges from these meetings, we will develop and circulate an overview of the process for reaching a decision on the FEM proposal, along with an appropriate timeline and projected communication vehicles.

Thank you for your interest in this issue.

Sincerely,

FEM Steering Committee
